MC's Royal Detailing

About MC's Royal Detailing

MC's Royal Detailing has brought together the most experienced and trained professionals in Auto, Marine, and Aircraft Detailing to the Carolinas. Our goal is to satisfy our customers and extend a quick, convenient and beneficial service for your vehicle because we know how good it feels to drive a clean car and contribute to a green environment. The central point of our mission is providing the best car detailing and customer service experience our customers have ever had. We make you feel great by delivering a clean, dry and shiny vehicle every time. We believe that no matter what you drive, you will feel better about your car after visiting MC's Royal Detailing. We are a Veteran owned and operated company who prides itself in our diverse heritage and unity. Every member of our team has raised their hand at one time or another in service of this great country and stands besides our brothers in blue, green and red. We believe in being our brothers keeper and lending a hand when others are in need no matter of creed, ethnic background, or personal belief.

Our customers are our principal priority. We strive to deliver dedicated, exceptional quality and friendly service each time you visit us. We feature the most efficient technology available in the industry, along with specially formulated products and proven techniques to provide a premier car detail unmatched anywhere in the Carolinas. There are many reasons for our success, and the most important include:

- A clean, comfortable, relaxing and welcoming environment.
- Our exceptional team of eager and passionate employees.
- Consistent quick delivery of a clean and shiny car.
- Our commitment to your 100 percent satisfaction.
- The highest-quality of environmentalism in the Carolinas.

Our Mission

We understand that in ever changing times. Trust is hard to find and the atmosphere of friendship and family is key. We know and understand that the most integral element of our success is our team of professionals. Our goals of delivering exceptional customer service are high, and our personal standards are even higher. At MC's Royal Detailing, we work hard to recognize our employees because we know that they are the reason that our customers keep coming back with a smile.

We are a family and take the time to know each and everyone who comes to be a part of our Royal Family. We provide a comfortable and productive

environment, this creates nothing but good energy and positive work flow to ensure both our teams and our clients are fully satisfied.

Contact Us Today

We enjoy hearing from our customers and receiving feedback. Contact MC's Royal Detailing today at (919) 526-0818 to give us a review and feedback. You can leave us a review on yelp, facebook or on our google listing. We use this form of communication to innovate and increase the quality of service we strive to produce.

Certificates

Our team of highly experienced detailers frequently attend educational workshops and are constantly enrolling in educational courses that encompass the latest technology, equipment and revolutionary techniques from the industry leading experts and companies. All personnel must pass through and advanced and accredited course in our industry prior to working on any customer vehicle.

We have gone through courses such as Majestic Solutions C.A.R.E Tech, Advanced paint correction and wet sanding, we have been certified and

recognized as IDA skills validated and certified detailers. We are also certified in IGL Kenzo Ceramic Coatings as well as Majestic Solutions Pro Shield Ceramic line. We take pride in our certifications and ongoing education as this gives us an advantage and a knowledge base well above our peers. We will continue this search for knowledge in order to bring you and any future customer the best service available.

FAQ

What should I expect when I arrive?

A friendly, energetic and professional team who cares about your car as much as you do will greet you and explain the different packages available.

What kind of cleaning products do you use?

At MC's Royal Detailing, we only use biodegradable acid-free and caustic free soaps and cleaning products that are safe for your car and our environment.

Why shouldn't I wash my car at home?

We can wash your car quickly, and we understand that your time is valuable. On the average, you use about 150 gallons of fresh water when you wash your

car by hand. At MC's Royal Detailing, we combine 30 to 45 gallons of fresh water with 75 gallons of recycled water. The pollution that you generate from washing your car at home ends up in the storm drains, and ultimately rivers and stream of NC.

Why does the paint finish on my car look streaky and dull?

This lackluster appearance is often a sign of oxidation, which occurs as paint ages and decays from exposure to road oils and sunlight. You can decrease the process by washing your vehicle frequently, applying a sealant regularly and coating it with a hand wax at least annually.

How do I protect my clearcoat?

There are two choices when it comes to protecting your clearcoat. The first is a short-lived and inexpensive option; wax. The second choice is a long lasting minimal maintenance required, and scratch resistant Ceramic Coating. Here at MC's Royal Detailing, we offer both options.

1. Ceramic coatings are a revolutionary paint protection technology that offers the highest form of gloss, extreme hydrophobic properties, improved resistance against harsh weather and temperatures, and reduces Mirco Marring. This is the new form of protection and best of all! It's self cleaning! With only minimal need for maintenance, your car will look like new for years now!

2. Wax/sealants: A sealant creates a barrier that helps protect clearcoated surfaces from corrosive elements, such as ultraviolet rays and airborne contaminants. Other destructive factors include tree sap, acids from leaf stains, bug spatter and bird droppings. All of these can eat through the clearcoat and cause permanent damage. A sealant produces a protective shield for up to 30 days.

ESSENTIAL STEPS TO BRILLIANT CAR DETAILING

1 INSPECT
Se analiza las condiciones y estado del vehículo a trabajar. Se decide si se empieza por interior o exterior dependiendo aspectos ambientales del lugar.

2 INSIDE
Clean interiors while you wait for wax layers to cure. Vacuum and shampoo carpet if needed. Use a good quality interior trim protectant that does not leave a sticky residue.

3 WASH
Wash vehicle using the two bucket method to avoid scratching your paint. Strip off old wax if needed using dish soap. If engine compartment detail is needed, do this first.

4 POLISH
If paint correction is needed, this is the part when the buffer comes out. Choose your compounds and buffing pads according to polish needs.

5 CERAMICA VEHICULO
If paint correction is needed, this is the part when the buffer comes out. Choose your compounds and buffing pads according to polish needs.

6 CERAMICA WHEELS
Remove the wheels and clean them inside out. Use older detailing clay to prep. Synthetic sealer for the wheels will help keep them clean longer. Dress your tires.

Resguardo de artículos personales en bolsas ziploc	Limpieza interior	Ozono*	Plástico protección carpeta piloto y copiloto*
Aspirado	Lavado Asientos*	Dressing*	Aromatizante interior

Services

Ceramic Coatings

Long lasting protection for all your cars, motorcycles and leisure vehicles. Enhanced UV protection, superior water beading, ultimate gloss, and unmatched scratch resistance. Packages ranging from a two-year protection all the way to a life long coating that offers the strongest and latest in coating technology.

Auto Detailing

Whether mobile or at one of our locations, your car will be taken care using the highest rated products in the industry. Our certified detailers will assess, attack and guarantee the work provided. No more need to drive around in a smelly dirty car.

Leisure vehicles

From boats planes and motorcycles...basically anything short of a spaceship, our certified reconditioning specialists have the ability to bring back the shine and luster needed to not only enjoy your investments wherever you want but to enjoy it in style.

Group Appointments

Book an appointment for 3 or more vehicles at the same time while you work or as a wholesale package for your company fleets and coworkers.

Ceramic Coatings

A Ceramic Coating (such as IGL, Majestic Shield, and Ceramic Pro) is a liquid protection that is applied by hand to the exterior of a vehicle. The coating chemically bonds with the vehicle's factory paint, creating a layer of protection.

A Ceramic Coating creates a permanent or semi-permanent bond with a vehicle's paint, meaning that it does not wash away or break down and does not require repeated application every few months such as a wax.

WHAT DOES A CERAMIC COATING DO?

In short, a Ceramic Coating adds additional protection to your car's exterior and helps keep it looking like-new with comparatively minimal maintenance. The coating achieves this result by making your vehicle more resilient and easier to clean. Here are the main benefits:

PROTECTION FROM UV DAMAGE / OXIDIZATION

If a vehicle is often exposed to the sun, its paint will begin to oxidize, resulting in dulled and

faded paint. A layer of Ceramic Coating protects a vehicle's paint from the sun's ultraviolet rays, thereby reducing the amount of oxidization.

PROTECTION FROM CHEMICAL STAINS AND ETCHING

Another danger for your car is chemical staining from naturally acidic contaminants. By creating a chemically resistant surface, a Ceramic Coating can keep some contaminants from bonding to your vehicle's paint. The result is that your vehicle will be more resistant to staining and etching, provided the contaminant is removed in a timely manner.

EASE OF CLEANING

One of the most significant features of a Ceramic Coating is that it is hydrophobic, which is a fancy way of saying it repels water. When a vehicle has a hydrophobic Ceramic Coating, water will bead on the surface and slide off more easily. This means that mud and grime will have a more difficult time bonding to your vehicle's paint, and when you wash your car, contaminants can be removed with less effort.

ENHANCED GLOSS

If you want your paint to pop with gloss, you will want to add a Ceramic Coating. A good Ceramic Coating enhances the reflective properties of your car's paint and clear coat, adding to the depth and clarity of your paint.

Auto Detailing

From the day you drive it off the lot to the day you gift it away or sell it, there is no reason your car should not look any different. Our team of certified detailers know how and what to provide your vehicle with to keep it looking in optimum conditions. Leather cleaning and renewal, plastic trim recovery, pet hair removal, and sanitation services that kill odors, bacteria and viruses are all available with all mobile and on location appointments.

Leisure Vehicles

Pulling it out for the weekend, just for the summer, or letting it sit at the marina, MC's Royal Detailing has all the right tools and techniques to keep your marine vehicles looking like new. We provide services for boats, jet skis, and all other marine vehicles with paint correction, interior cabin cleaning, exterior cleaning and we even provide metal polishing for all your aluminum railings. We only use certified eco-friendly and low VOC products to ensure minimal environmental impact.

RV AND OFF ROAD VEHICLE'S

With all that surface area, protection and maintenance is crucial and vital to maintain your investment long lasting. Services range from a quick wash & wax to scratch removal from branches and debris. We even provide under-body washes for when you return from the beach, camping, snowy or off-road trip.

AIRPLANES

Taking flight is a beautiful and amazing experience that should not be overlooked due to having a dull and lifeless aircraft. MC's Royal Detailing uses advanced techniques and industry-leading products to successfully rejuvenate the paint, propellers, or turbines on any aircraft. We scrub and detail top to bottom from the top of the vertical stabilizer to the belly of the plane and even the landing gear. We utilize eco-friendly and authorized products that do not compromise the integrity of the plane or it's sophisticated machinery and electronics. We keep your aircraft looking at the top of its game, so you don't have to.

Group Appointments

Life at a busy company leaves little time to treat your car to a well deserved detail. Treating your car, truck or van properly a few times a year will go a long way to help keep the longevity of your precious vehicle but most importantly, it will help keep money in your pockets.
